RE: Procedure E-051.17 Pesticide Application

DATE: July 22, 2008

The purpose of this memo is to call your attention to District *Procedure E-051.17 Hazardous Materials in Schools – Pesticide Application* (available on the District website (www.greenwickschools.org)). As outlined in the procedure, staff, parents and guardians may register for prior notice of school pesticide applications at their respective school. In cooperation with the Departments of Health, Parks & Recreation and Public Works, the school system will notify those who have registered for prior notice no later than 24 hours prior to the application. Staff members who have registered for such notice shall be informed by any means practicable. Other specifics related to pesticide application are outlined in the procedure and on the District website (www.greenwickschools.org) in the Facilities Department section.

If you would like to register for prior written notice of school pesticide applications, please inform the school office in writing. Please include your name (parent, guardian, staff member), and your child's/children's name and grade if applicable; make sure the school has your current mailing address.
