

Greenwich Public Schools eLearning Student Portal

Introduction:

The eLearning Student Portal is the next logical step in improving communications between teachers and parents/students. The portal allows parents and students to access a secure and personalized webpage that will provide information such as homework, tests, quizzes and class events. For the time being, all other announcements will be available on the Main website, but all homework and individual class info will be posted on the Portal.

Logging On:

Navigate to the Western Middle School Website as you normally would and find the quicklink entitled “Student Portal” or you can reach the portal directly by navigating to the url below:

<http://www.gsdstudentportal.com/>

User ID
Password
Passwords are Case Sensitive

You will be required to enter a username and password.

The username is your **FULL** student ID number, two more zeros than the normal computer login at school. The number entered should be 10 digits long example: 0000498512

The password is the student’s date of birth in the following format: MM_DD_YYYY

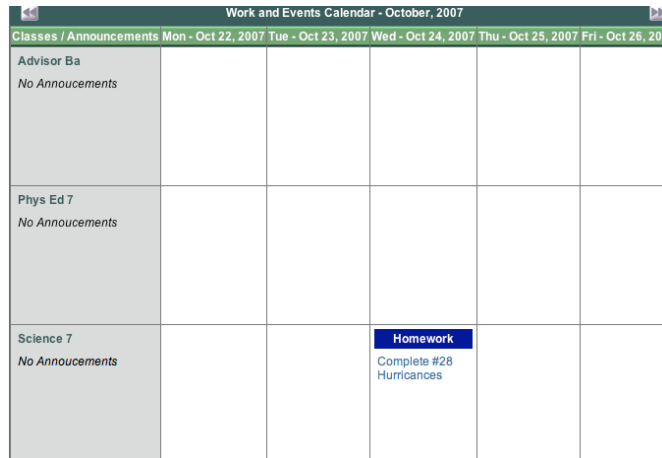

So if the student’s date of birth is February, 9th, 1995, the password is: 02_09_1995

(Further information on reverse)

Accessing information:

Once the password and username have been entered, there is a disclaimer that should be read and accepted before using the portal.

Below is the screen that you will see on the right when you have properly logged in and accepted the user agreement:
