Greenwich Public Schools supports a regional food system that is ecologically viable and sound, socially responsible, and will increase the availability of local, sustainable food.

In order for Greenwich Public Schools to achieve that vision it needs to adopt new core values to guide its planning and purchasing processes:

1. **Optimal Nutrition** – we will promote health and well-being in our students by increasing portions of fresh vegetables, fruits, whole grains, and legumes while reducing portions of meat and dairy; reducing salt, white sugar and high fructose corn syrup, refined grains, saturated and animal fats, fried foods and added oils; and by eliminating highly processed meats, artificial additives and chemical preservatives. We will create and promote curriculum in schools that

informs students about food and nutrition.

2. Local Economies – we aim to support small to mid-sized agricultural and food processing enterprises in our local area.

3. Environmental Sustainability -- we aim to support farmers that use sustainable farming practices that include: 1) reduce or eliminate synthetic pesticides and fertilizers by using the least toxic crop protectants; 2) conservation of soil and water; 3) avoid the use of hormones, antibiotics, and genetic engineering; 4) protection and enhancement of wildlife habitat and biodiversity; 5) and minimization of on-farm energy consumption and greenhouse gas emissions.

4. Valued Workforce – we aim to support those enterprises that provide a safe and healthy working environment and fair compensation for all food chain workers. We embrace these values in our internal food production and service team.

5. Animal Welfare – we aim to support those that provide healthy and humane care for farm animals including: cage-free, grass-fed, well-tended, humanely slaughtered animals.
