

Important information regarding the school directory in reference to the Board Of Education Policy pertaining to Directory Information (E040.29):

- Directory data is maintained by the District. If a parent does not object to the disclosure of information within the time specified in the notification, school and district administrators will release such information upon request to the PTA for the publication of a school directory.
- The accuracy of the data is the sole responsibility of the parent/guardian of the student. Therefore, please make sure the information you have provided Eastern is accurate, and in the case where there are two legal residences that wish to be listed, clearly indicate this information on the Student Profile Form which was provided by the school. The PTA does not have the ability to collect this information. Please contact the school office if you have any questions regarding the Student Profile Form.
- Directories are for PTA Members with children in our school community only. In order to receive a directory you must join the EMS PTA and provide required student information per form. Additional directories may be purchased by PTA family members of Eastern at an additional fee separate from the membership fee.
- Please note that the directory is produced by the PTA for the exclusive use of EMS PTA members of the school community who have children at Eastern. It is not intended for public or commercial use. Any changes should be reported to the school office.
