Determining Eligibility

$$\begin{array}{r} \text{Cost of Attendance} \\ - \text{Federal EFC} \\ \hline \text{Financial Need} \end{array}$$

The Cost of Attendance

- **Direct Costs**
 - Tuition and required fees
 - Room and board for resident students
- **Indirect Costs**
 - Books and supplies
 - Transportation to and from campus
 - Miscellaneous personal expenses

Expected Family Contribution (EFC)

- The EFC is calculated according to a formula established by law
 - The formula considers financial information reported on a student's FAFSA, along with family size and the number of family members who will attend college during the year.
 - Subject to federal verification
- Used to calculate the amount of federal financial aid a student is eligible to receive
- **The EFC is not a guarantee of the dollar amount a student will pay to attend college**
 - Net Cost of each college is subject to Federal, State & individual school funding

Eligibility for Financial Aid

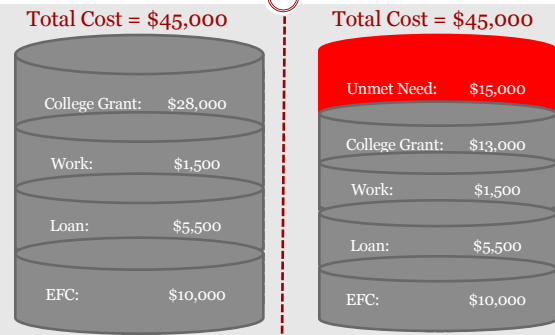

| | 4 Year Private | 4 Year Public |
|------------------|----------------|---------------|
| Total Cost | \$45,000 | \$22,000 |
| - Federal EFC | \$10,000 | \$10,000 |
| = Financial Need | \$35,000 | \$12,000 |

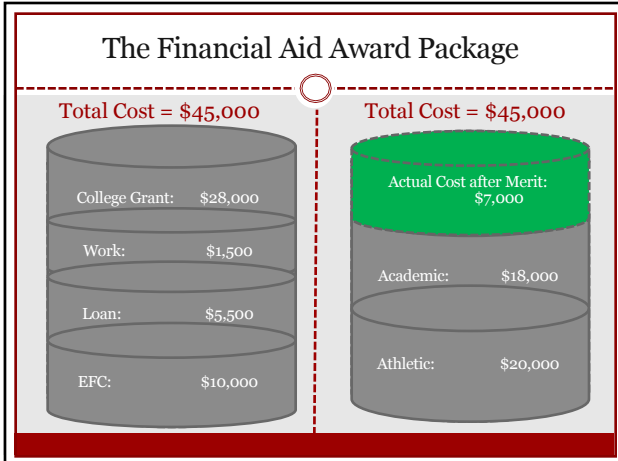

Need-Based vs. Merit Based

- Need-based aid is subject to a student's demonstrated financial need. Merit-based aid considers achievement, talent & participation, regardless of financial need.
